

MOLDING INFO

TECHNICAL INFORMATION ALL MOLDINGS ARE 94" LONG (7' 10")

All moldings come complete with any required (plastic) tracks, shims, etc.

Our moldings are carefully selected to be the closest match possible to our flooring. While the moldings are considered complimentary colors to the flooring they will not be an exact match. It is typical of the laminate industry that laminate flooring moldings and laminate flooring are produced by different suppliers using similar but not identical colors and patterns.

T-Molding:

Surface Material: High Wear Resistant Laminate (aluminum Oxide Overlay)

Core Material: Moisture Resistant MDF

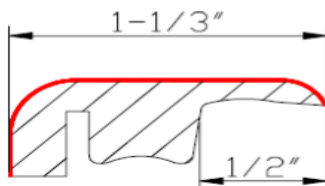

Reducer:

Surface Material: High Wear Resistant Laminate (aluminum Oxide Overlay)

Core Material: Moisture Resistant MDF

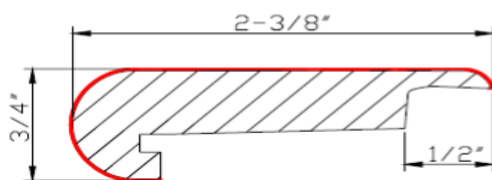

End Cap (Square Nose):

Surface Material: High Wear Resistant Laminate (aluminum Oxide Overlay)

Core Material: Moisture Resistant MDF

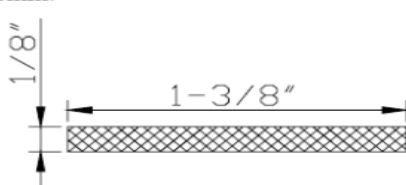

Stair Nose:

Surface Material: High Wear Resistant Laminate (aluminum Oxide Overlay)

Core Material: Moisture Resistant MDF

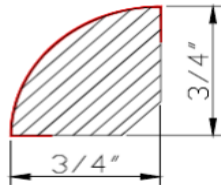

Shim:

Core Material: MDF

To be used to raise the Stair Nose when used for a 12mm or 14mm Floor.

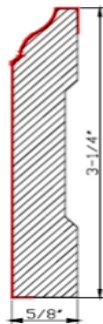

Quarter Round:

Surface Material: Decorative Paper

Core Material: Standard MDF

Wall Base:

Surface Material: Decorative Paper

Core Material: Standard MDF

Thin Track

Material: impact polystyrene

To be used with T-Molding, Reducer and End Cap for floors from 7mm – 9.5mm thickness including 3/32nd underlayment.

Thick Track

Material: impact polystyrene

To be used with T-Molding, Reducer and End Cap for floors from 9.5mm – 14mm thickness including 3/32nd underlayment.
